**Parents:**

- First of all, *thank you for your support of your child's instrumental music program!*
- Numerous scientific studies have concluded that the study of music has a number of benefits, including improved cognition, higher test scores, and stronger critical thinking skills.
- Due to budget constraints, an increasing number of MCPS schools are struggling to maintain quality instruments and offer performing opportunities. Instrument repair budgets are small and taking trips that require buses put financial hardship on families and music programs.
- Parent support through volunteering for events and fundraising are critical to the success of these programs.
- Please contact your child's instrumental music teacher to learn about more ways in which you can help support their music education!

*We hope that you enjoy the concert tonight. In order to ensure a positive experience for all students and audience members, please silence your cellphones and other electronic devices before the beginning of the concert. Thank you!*
